<The Night of Stars>

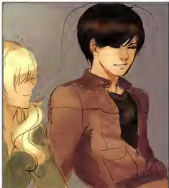

where

meet

Are you
tired already?
It's only around

eight o'clock

.....

Maybe a little--

But that's only
because I did extra
SC work today

Oh, that's okay!
I can't help it.

Even after
drinking all
that coffee?
Amazing.

Hey! Not
everyone is
nocturnal like
you, okay?

Nocturnal ...

When you
put it that way,
it's like I'm a
vampire or
something.

But you really
are like a vampire!
You hate going
outside when the
sun's out, you always
like to sleep in your
dorm, and you're
super anti-social!

STAB

... Are you
insulting me
on purpose?
I honestly
can't tell

anymore.

Alright.

You got me.

Now that I've
been discovered,
I'll have you know
I like to prey on
weird, coffee-
drinking, blonde
girls—

S-seriously?!

You're a vampire?

L-like in the movies

and comics?!

No! It's
called being
sarcastic!

O-oh...
It seemed pretty
believable. Don't

get mod...

You're so
gullible, it
scores me.

...Are the
meteors going
to appear
soon?

Yeah, soon.
It might be a
little hard to see,
so keep your
eyes peeled.

So...
What exactly

What's the difference
between meteors
and comets?

Good question.
They're often
misconceived as one
or the other, but
they're actually easy
to differentiate.

A hand with a purple sleeve pointing its index finger upwards towards the top speech bubble.

Comets are a lot further away in space and orbit around the sun, similar to planets.

Meanwhile, meteors are much smaller bodies that burn up in the atmosphere as they approach Earth.

They appear as

quick streaks of
light in the sky and
are often called
"shooting stars."

But if a meteor
doesn't burn up
all the way and
reaches Earth's
surface, then it's
defined as a
meteorite.

Which is
pretty cool
because--

You...

Didn't ask
about meteorites.
Sorry, I started
rambling off.

Oh! No, no--
Don't apologize,
I like listening!

You seem so
passionate
about it, you
shouldn't be
embarrassed.

I think
it's admirable
that you go out of
your way to explain
just about anything to
me... Regardless of
how simple or silly
my questions are.

All this time,
I've been trying
to keep up with

everyone else's
pace, blindly
tagging along to
not feel left
behind...

But when I'm
with you, I don't
have to worry
about that at
all ...

B-BUT ANYWAY!
ENOUGH ABOUT ME
AHAHA...

Y-you were saying?
Sh-shooting stars
and meteorites,
right?

Pfft. I bet you're
the type to make
wishes on 'shooting
stars,' am I right?

N-no! Wishing
on shooting stars?
Only kids d-do that!

(...Actually I
would do that)

But let's say
if you did...
What would
you wish for?

Me? Uhh...

A person with blonde hair, wearing a purple coat, is shown from the chest up. They are looking down with a somber expression. The background is a solid blue color.

Sigh

I'm just...
I don't
know...

forgets to look
after himself.

But that's
really unselfish
of you.

Take me for
instance, I'm a
selfish person.

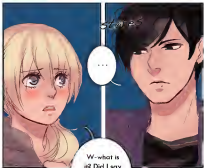

I do what I want
without taking much
consideration
towards others.

I choose to
be dishonest
over saying
what I really
feel.

That's not true.
I'm sure you have
your reasons... I
don't think you're
selfish at all.

W-what is
it? Did I say
something
strange just

now?

Would it
be selfish
of me...

To want you
all to myself?

M-me?
Why would
you want
me??

Because I...
Don't dislike
you.

Oh...
D-do you
dislike a lot
of people?

This is a
lot harder than
it should be.
How else am I
supposed to spell
it out for her?

Sorry L...

I don't
know what I
was thinking
just now.

A-ah--
It's okay. It
didn't mean
anything anyway.
It was just a
k-kiss, right?
haha...

...
"It didn't
mean
anything?"

Well, t-to you,
but for me I
thought maybe...
N-nevermind...

Is that the type
of person you
truly see me as?
Someone who
does this kind of
thing to anyone?!

Why'd you
do it to
someone like
me then?!

and
**I like
you.**

The image is a romantic illustration. The top half shows a close-up of a couple embracing. A woman with blonde hair is on the left, and a man with dark hair is on the right. They are both smiling and looking at each other. The woman is wearing a dark top, and the man is wearing a dark shirt. The background is a soft, warm glow. The bottom half of the image is a dark blue gradient with several small white stars and a single bright comet streaking across the sky.

I like
you too

...

B-but I thought
you didn't think
of me that way
because I'm
stronger.

Are you sure
you're not
making a
mistake...?

I... I can't
be fixed,
you know.

None whatsoever.

You were
never broken
to begin
with.

Despite all
we shared that
night, I was still
torn, knowing how
she perceived
herself...

I wanted to
be there for
her, to stay
by her side

...

Little did I
know that
I'd actually
be the first
to hurt her.
